

RAHUL MEENA

SDE Intern Candidate | MERN Stack Developer | IIIT Manipur ECE

Jaipur, India | +91 9521638916 | rahuljharwal2468@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

SUMMARY

Full-stack MERN developer and ECE undergraduate at IIIT Manipur with practical experience in REST APIs, JWT authentication, MongoDB, React.js, and manual testing. Built 3 backend-focused and AI-integrated projects with 15+ REST endpoints using Cloudinary, MongoDB Atlas, and Gemini AI; actively seeking SDE internship roles for 2025–26 where I can contribute to real product development.

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), Python, C, HTML5, CSS3

Web Development: Node.js, Express.js, MongoDB, Mongoose, React.js, REST API Design, JWT, Cloudinary, Gemini AI

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, Netlify, Debugging, Manual Testing

Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems (OS)

PROFESSIONAL EXPERIENCE

Web Development Intern

Remote

Plasmid Innovation Ltd. (MSME Registered)

May 2025 – July 2025

- Contributed to frontend development and QA workflows during a 2-month internship, receiving excellent feedback from HR.
- Built 4+ responsive UI pages using HTML, CSS, JavaScript, and React.js for better display across devices.
- Created reusable React.js components to keep the code cleaner and easier to update.
- Manually tested 10+ UI flows and API interactions using DevTools and Postman.
- Identified and resolved 10+ UI and API issues during testing cycles before final review.

TECHNICAL PROJECTS

YouTube & Tweet Platform | Tech: MERN, JWT, Cloudinary | [Backend](#) | [Frontend](#) | [Live Demo](#)

- Architected a scalable backend with MVC pattern across models, controllers, routes, middlewares, and utility layers.
- Added user registration, login, profile handling, protected routes, and JWT-based access/refresh token authentication.
- Built 15+ REST API endpoints for videos, tweets, likes, comments, subscriptions, and user interactions.
- Integrated Cloudinary for media storage with file size validation, format checks, and secure upload handling.

AI Private Chat Room | Tech: React.js, Node.js, Express.js, Gemini AI | [GitHub](#)

- Developed a full-stack private chat application with message rendering, session-style history, and Gemini AI-powered smart replies.
- Built RESTful backend with Express.js to handle chat sessions, message storage, and AI API calls.
- Managed frontend state and session-style message history using React.js hooks.

DSA-Focused Gemini AI Chat Room | Tech: JavaScript, Gemini AI | [GitHub](#)

- Built a Gemini AI-powered chat box to explain DSA problems, approaches, and edge cases across common DSA topics.
- Wrote prompts for step-by-step hints, time-complexity discussion, and beginner-friendly explanations.
- Focused responses on problem-solving logic instead of directly giving final answers.

EDUCATION

Indian Institute of Information Technology (IIIT), Manipur

Expected Aug 2027

B.Tech (ECE Student) | CGPA: 7.00/10

Relevant Coursework: Data Structures, OOP, Operating Systems, Computer Networks

Active GitHub: 3 deployed full-stack projects

Adarsh Vidya Mandir Senior Secondary School, Jaipur

March 2022

High School Diploma

CERTIFICATIONS & ACCOMPLISHMENTS

- Selected for Startup DPIIT Mahakumbh 2025.
- Received a Letter of Recommendation from the Senior Manager HR for performance during training.
- Solved 120+ LeetCode problems—Arrays, Strings, Trees, Dynamic Programming, and Graphs.
- Completed Introduction to Software Testing certification covering testing fundamentals and debugging.
